Summary

Possible summary:

I am a Java Developer, I create innovative and scalable web applications for various clients with a team of talented and passionate developers. I have a certificate in Business Administration and Management from Fundisa skills and Leadership Academy, which taught me the fundamentals of digital marketing, project management, and leadership skills.

I have also completed multiple online courses and certifications in WordPress, CSS, HTML5, Azure, and AWS, which have enhanced my technical and creative abilities. I have over 1.5 years of experience as a System Development Student at Dynamic DNA, where I contributed to the development and testing of several software projects using Java and other technologies. I am proficient in Java SE 8 OCA, and I enjoy learning new tools and frameworks to improve my coding skills and deliver high-quality solutions. I am passionate about web development and I aspire to become a full-stack developer in the future.
